T-BEV, Inc. (TBEV) is a manufacturer and distributor of high-quality botanical extracts, including tea extracts and natural/organic caffeine, for the functional beverage and dietary supplement markets. TBEV's ingredient products serve a specialized niche of the large and growing caffeine and tea extract markets, and are on trend with consumer preferences for natural, organic, healthy and "clean" label ingredients.

Five Points led the unitranche financing and provided an equity co-investment to support Swander Pace Capital's acquisition of TBEV.
