Headquartered in Earth City, Missouri, Young Innovations is a leading developer, manufacturer, and marketer of consumable and diagnostic supplies and equipment for dental professionals and consumers. The Company's consumable products include preventative, infection control, micro-applicators, practice enhancement, and endodontic supplies, and its diagnostic equipment includes digital imaging, film X-ray systems, and related consumables. Young Innovations commands a leading position in the dental products market as a result of its excellent customer service and focus, high-quality preventative consumables product focus, and blue-chip brand name recognition among its major dental brands.
