Synoptek provides information technology management services and support to small and medium-size businesses worldwide. The company offers solutions to manage and operate IT infrastructure using its advanced IT service management (ITSM) capabilities, automated toolsets, and skilled technologists. Synoptek's trusted team of IT professionals provides superior end user and device management support to improve business performance and success. Synoptek offers a complete suite of managed IT services and specializes in serving technology-intensive and often highly regulated industries including software development, financial services, government and healthcare. For more information, please visit www.synoptek.com.
