Headquartered in St. Joseph, Missouri with a manufacturing facility in Emporia, Kansas, Vektek is a market leading designer and manufacturer of hydraulic clamps and related products that are used to secure parts during the metal cutting process associated with CNC (Computer Numeric Control) machining. Vektek serves a loyal, highly diverse, and global customer base comprised of both end users and CNC fixture builders in a wide range of industries.

Five Points Capital invested subordinated debt and equity in support of the acquisition of Vektek by LFM Capital.
