---

Belmont Instrument LLC ("Belmont") is a provider of high-tech lifesaving fluid warming and infusion devices to domestic and international hospitals, trauma centers, emergency medical services, cancer centers and militaries. Belmont's core business is a family of blood and fluid warming products including a Rapid Infuser, multiple low-flow infusers, and their accompanying single-use disposables.

Five Points Capital provided subordinated debt and made an equity co-investment in support of the recapitalization of Belmont by management and Audax Private Equity.
