

MARCH 2018

GPSTrackit

Empowering Your Fleet™

HAS ACQUIRED

InTouchGPS

FLEET TRACKING SOLUTIONS

Subordinated Debt & Equity

Provided By

FIVE POINTS CAPITAL

GPSTrackit provides an easy to use, GPS-based, fleet management subscription solution which creates added value and operational efficiencies for its clients.

The complementary acquisition of InTouchGPS brings a strong, experienced team, a robust telematics platform and an attractive high-growth In-Cab video capability, and allows GPSTrackit to continue to build scale, cross-sell additional value-added services and accelerate development efforts.

Five Points Capital provided subordinated debt and an equity co-investment to support the acquisition of InTouchGPS by GPSTrackit. Previously, Five Points provided unitranche debt and an equity co-investment to GPSTrackit to fund its growth initiatives and the add-on acquisition of TSO Mobile. GPSTrackit is a portfolio company of Inverness Graham Investments.
