A PORTFOLIO COMPANY OF

HAS ACQUIRED

Unitranche Financing

Provided By

FIVE POINTS CAPITAL

Lewellyn Technology is an outsourced safety solutions partner that provides companies with electrical and workplace training and safety services such as arc flash, combustible dust, and lockout/tagout risk assessments. Predictive Service is a global provider of enterprise asset management, predictive maintenance (including infrared inspection and vibration monitoring) and repair services.

The strategic combination of these two businesses creates a unique, technology-enabled enterprise asset management, predictive maintenance, safety, and repair services platform designed to reduce operating costs, improve equipment utilization, and ensure safety for customers worldwide. The combined platform is headquartered in Indianapolis, IN with additional offices in Cleveland, OH, Linton, IN, Wapole, MA, as well as international offices in Hong Kong and Poland. Both companies have consistently been represented on the Inc. 5000's "Fastest Growing Private Companies" list.

Five Points Capital provided additional unitranche financing to support the acquisition of Predictive Service by Lewellyn Technology, a portfolio company of Align Capital Partners.
