

Five Points

CAPITAL

HAS ACQUIRED

NOVEMBER
2022

Founded in 2006, Fix-It 24/7 (“Fix-It” or the “Company”) is a leading provider of non-discretionary home maintenance and repair services, including HVAC, electrical, and plumbing in the Denver Metro area. The Company exclusively serves the existing residential segment (no residential new construction or commercial buildings) and provides around-the-clock services through its highly-trained roster of technicians and installers.

Five Points Capital ("Five Points") provided unitranche debt to support the acquisition of Emergency Air Heating and Cooling by Fix-It, a portfolio company of New Harbor Capital.
